Developing and Publishing Children's Environmental Education Materials to Promote
Environmental Awareness, Appreciation, Knowledge and Stewardship

Dedicated to Sustainable Business Practices and Producing Environmentally Friendly Products

Our Books

NATURE DISCOVERY IN MY BACKYARD 2009 PREFERRED CHOICE BOOK AWARD

Children will use their senses to explore nature. They will smell, hear, feel, and see their way through their own backyard nature discovery. Each page offers a unique look into nature, with colorful pictures that will challenge your children to find all that nature has to offer. In the back of the book, parents and educators will

find amazing tips for going on a nature discovery with their children and students at any time of the year! The Nature Notes in the back of the book provide exciting information about the plants and animals in our nature discovery. This book also links to the Model Early Learning Standards so that educators can use it.

GO GREEN WITH ME 2009 BOOK OF THE YEAR AWARD

Join EnviroGirl as she learns about saving the environment! In *Go Green With Me* you and your child will learn simple, eco-friendly tips that will help protect the planet. From recycling and solar power to worm composting and so much more, *Go Green With Me* makes these important lessons fun to read and learn.

Purchase at select locations or online at
www.thelittleenvironmentalists.com.

Community Outreach Programs Children's Education Programs

NATURE DISCOVERY

Your child will explore the world around us on a nature discovery adventure. We will begin by reading our short story, *Nature Discovery In My Backyard*, and then go out on our own nature discovery journey (if applicable) to look for bugs, leaves, flowers, pine cones, birds, animals, and butterflies and find all that nature has to offer! Children will be challenged to smell, feel, hear, and see their way through a unique adventure. Our program will end with a craft that children will make and take home. We hope children will return to their own backyards with a new sense of nature discovery that awaits.

GO GREEN

Go on an environmental journey and turn green! We will begin by reading our short story, *Go Green With Me*, and then will work on recycled craft projects together. Nature's recyclers and vermicomposting will be discussed. Children will be able to touch, learn about, and feed our worms. As part of the program, children will make a recycled, biodegradable seed pot that they can plant at home! We will challenge children to learn about eco-friendly actions that everyone can take to become more environmentally-friendly at school and at home!

Adult Education Programs

GOING GREEN AND SUSTAINABLE LIVING

Do you want to go green at home? Are you unsure of what steps to take to begin going green? If you answered YES, then this forum is for you! We will discuss positive simple changes that you can make in your life and home with the environment and sustainability in mind. We will discuss some of the environmental issues we are currently facing, some easy changes that you can make to go green, and how much impact these can make on the environment. We are confident that going green is simple and effective and that we can all work together toward a sustainable future.

About Our Company

The Little Environmentalists is committed to developing and publishing children's environmental education materials to promote environmental awareness, appreciation, knowledge, and stewardship.

Our company is dedicated to sustainable business practices and producing products in an environmentally friendly manner. Our books are printed on 100% recycled paper with 100% post-consumer waste that is processed chlorine-free, using environmentally friendly inks.

By keeping abreast of the current technology available, we are always looking at ways that we can improve our business practices and products to lessen our impact on the environment.
